\$42,000 000 Must Be Spent to Prevent Japanese Invasion.

Paris: M. Francois Deloncle (Republican). Deputy for Indo-China, has submitted to the special Parlimentary Committe on Naval Affairs a remarkable report on the urgent necessity for strengthening the defenses of Indo-China against the peril of a Japanese invasion

"Indo-China," he says, "has only two enemies to fear, namely Japan alone or China, encouraged and supported by Japan. The former constitutes a real danger, for Japan has much to gain and little to risk, and her isolated position makes her almost invulnerable to us. She could in a few weeks throw 100,000 men into Indo-China and easily re-inforce this first landing
